

Dear Colleagues,

It is once again time to vote in the CCO election for district 3. I ask all of you to take the time to elect the person needed for this position.

I am putting my name forward this year to run for election in our district, I feel that I have the knowledge, skill set, and required competencies needed to be a successful and meaningful council member.

During my career I have various experiences that will help me continue being an active member on the CCO. As a small business owner, I have the responsibility of being fiscally responsible for my staff, myself, and my business. During my time at CMCC I was chosen as a member of the budget committee. Whether it is creating budgets or financial projections this is a skill set I can bring to the CCO.

Being on council, protecting the public is paramount. Whether it is my position as a chiropractor, my previous faculty position instructing future chiropractors, my position on the CCO council, or my new position as a municipal firefighter, all the career choices have a commonality, protect the public. Each position I have or have held has allowed me to gain knowledge and skills that make me a perfect candidate to uphold the mandate of the College of Chiropractors of Ontario.

This is your call; I humbly ask for your support and to cast your vote when the time comes.

If you have any questions regarding my candidacy for the position, please feel free to contact me. steve@theaimclinic.ca

Sincerely,
Steve Lester
